Comprehensive Guide to add binance smart chain mainnet to metamask

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we've answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...

Elkaleh said both platforms are expanding “beyond sports,” tapping into real-world events like politics and macroeconomics, and evolving into “real-time sentiment tools.”

The company said SearchGPT is currently available as a prototype to 10,000 test users at launch. The service is powered by the GPT-4 family of models.

Launched by Grayscale Investments, one of the largest digital asset managers, this staking-enabled exchange-traded product (ETP) signals a new phase in crypto’s maturation and integration with traditional finance. It’s more than a fund; it’s a bridge providing traditional investors a regulated pathway to tap into the growth potential of crypto staking.

According to a post from journalist Eleanor Terrett on X, “the senators as a group said they were committed to getting a bill done.”
