Chainalysis attributed Russia's surge in crypto adoption to two primary factors: a spike in large institutional transfers and the growing use of decentralized finance (DeFi).

SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing concise, summarized information responding exactly to what users are looking for.

The new “DraftKings Predictions” is expected to debut as a mobile app in “the coming months,” covering all markets from finance and culture to entertainment.
