The acquisition of GTreasury marks Ripple's third acquisition in 2025, including the $1.25 billion purchase of Hidden Road, a prime brokerage company, and stablecoin platform Rail. Both acquisitions highlight the growing relationship between traditional and digital finance.

If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every

possible risk scenario that could ever arise.

"The addition of licensed NHL markets could accelerate the platforms' growth trajectory in Q4, as official league partnerships bring credibility and attract new users," Jamie Elkaleh, chief marketing officer at Bitget Wallet, told Decrypt.

Miners have often had to sell coins or branch into different industries—like high-performance computing for artificial intelligence—to cover operational costs.

Last week, investors liquidated more than $19 billion in largely leveraged crypto futures positions.

However, the next bear market will be defined by the business cycle, explained Woo. The last business cycle downturns that really took hold were 2008 and 2001, before crypto markets were invented, he said.
