The market has "clearly chosen Bitcoin as a store of value," he said.

Bull traps: False breakouts and how to confirm

Digital wallets are essential tools for entering the blockchain world. They are not only used to store cryptocurrencies but also to manage users' digital identities and interact with DApps. According to different storage methods, digital wallets can be divided into hardware wallets, software wallets, and paper wallets. Among them, hardware wallets have the highest security but are less convenient to use; software wallets (including desktop wallets, mobile wallets, and web wallets) are convenient to use but have relatively lower security. Choosing a suitable digital wallet requires balancing security and convenience according to individual needs and asset scale.

Still, the proposal with its crypto-focused products dovetails with issuers' growing efforts to address investor demand for funds based on digital assets. On Friday, LeverageShares and Themes Trust included 3X long and short funds focused on COIN and HOOD among 14 ETFs in its proposal to the SEC.
