Lee stated that many DATs are trading below their net asset value (NAV), or the worth of their underlying crypto holdings. "If that's not already a bubble burst… How would that bubble burst?" he told Fortune on Thursday.

High-end brands are also joining in: Gucci and Ralph Lauren have continued to expand their crypto payment options at select flagship stores, particularly for their more exclusive collections.

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.
