A business cycle downturn is a period of economic contraction where GDP declines, unemployment rises, consumer spending falls, and business activity slows. It is also commonly referred to as a recession and typically follows periods of expansion.

It comes as open interest on perpetuals has spiked 2.35% to \$30 billion in the last two days, as traders begin to position ahead of this week's employment figures.

How to read: A decline in volume on the right shoulder signals weakening momentum. A price break below the neckline confirms a bearish reversal, while a break above it confirms a bullish inverse. Measure the distance from the head to the neckline, then project that distance from the breakout point to estimate the target move.

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.
