The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

"Crypto is now an alternative currency that has its supply limited, so, all things being equal, if the supply of dollar money rises and/or the demand for it falls, that would likely make crypto an attractive alternative currency," he said.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead. That cohort may be partly accounting for crypto's weekly decline, with Bitcoin dropping over 9%, Ethereum falling 6%, and XRP showing a 15% dive—with some altcoins down even worse. Crypto prices plunged last Friday following Presiden...

The aggregate hash rate for the world's largest digital asset was previously concentrated in China. Following the country's ban on Bitcoin mining in May 2021, companies were forced to move elsewhere to set up their operations.

Ultimately, Carrone's concerns center around the differing aims of decentralized and centralized entities, and the dangers of allowing any type of fund — not just Paradigm — to have too much sway over the Ethereum ecosystem.

The top banking regulator in the U.S. dismissed fears that stablecoins could trigger a sudden deposit crisis, urging community banks to view the digital assets as tools for competing with Wall Street giants rather than existential threats.
