Tokyo Whale's first Mt. Gox Bitcoin sales dump

The immediate-term direction now hinges on Friday's upcoming Non-farm Payrolls report. A bullish jobs report would most likely just limit the "red September" damage, according to Dawson, rather than spark a major rally.

Still, some miners have already announced initiatives to convert facilities with Hut 8 last month revealing plans to develop 1.53 gigawatts of new capacity across four U.S. sites.

The U.S. dollar index (DXY), which tracks the value of the U.S. dollar relative to a basket of foreign currencies, has shed 11% of its value since the first half of this year and is currently hovering around 98.23.

The first week of October delivered a strong performance for the crypto market, with Bitcoin setting record highs and the layer-1 sector leading the charge among altcoins.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
