The first, as is highlighted in Craig's film, is that it is incredibly difficult to build code that is robust enough to regulate human behavior in the range of circumstances it is likely to encounter. This issue comes from a mismatch between the rigid logical nature of code and the fluidity of human behavior.

June, Hut 8 received a \$150 million investment from tech-focused investment manager Coatue Management, to help the company "capitalize" on the growing demand for AI computing power.
