A series of teaser videos shared by OpenAI show that the new AI search tool is designed to summarize website content, including news sites, and answer user questions similarly to how ChatGPT operates. In some ways, it's similar to what Perplexity—touted as an “answer engine”—currently offers. But if integrated into ChatGPT itself, SearchGPT would make OpenAI's chatbot broadly capable.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.
