Comprehensive Guide to binance futures trading tips

“It remains unclear how the Bitcoin came to be in U.S. custody,” on-chain intelligence firm Elliptic recently concluded. “It’s also unclear who ‘stole’ the bitcoins from Chen/LuBian or whether a theft really took place.”

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI’s Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Still, the proposal with its crypto-focused products dovetails with issuers' growing efforts to address investor demand for funds based on digital assets. On Friday, LeverageShares and Themes Trust included 3X long and short funds focused on COIN and HOOD among 14 ETFs in its proposal to the SEC.

"I believe some of the sell-off is due to a cohort of market participants stuck to the four-year cycle," Matthew Nay, a research analyst at Messari, told Decrypt. "If you look at the timing, it's almost exactly four years since we topped last cycle, and when you throw in trade war uncertainty, it allows them to defend their positions more aggressively."

That cohort may be partly accounting for crypto's weekly decline, with Bitcoin dropping over 9%, Ethereum falling 6%, and XRP showing a 15% dive—with some altcoins down even worse. Crypto prices plunged last Friday following President Trump's latest China tariffs threat, prompting a record \$19 billion worth of daily liquidations, and have ticked down further this week.
