Comprehensive Guide to binance info legit

Paradigm is a crypto and AI investment firm founded in 2018 by former Sequoia Capital partner Matt Huang and Coinbase co-founder Fred Ehrsam.

House of Doge was founded earlier this year to help grow mainstream awareness and adoption of the world's biggest meme coin. Since that time, the firm has collaborated with publicly traded CleanCore on a DOGE treasury chaired by Alex Spiro, the personal lawyer of DOGE-friendly billionaire entrepreneur, Elon Musk.

“With NAVs now having fully round-tripped, retail investors have lost billions — and many likely lack the conviction to keep adding to their positions.”

For Solv Protocol, the deal marks one of the largest public-market integrations for its wrapped Bitcoin product to date, though the move also limits participation to qualified investors and may dilute existing shareholders.

“Visually, the chart makes it clear that there is a major redistribution taking place: Bitcoin is moving from long-term holders into new addresses managed by ETFs,” he told Decrypt. “As ETFs create demand, supply is being provided by old holders.”

Recently, though, Bitcoin ETFs have been rebounding after lagging compared to Etheruem ETFs. BTC funds have just recorded two consecutive days of inflows exceeding \$300 million, totaling \$633.3 million across both sessions—the strongest two-day performance since early August.
