However, as the price failed to hold above \$110,000 on Thursday, that short-term confidence faded. While the hourly premium has turned negative, the daily reading remained slightly positive, indicating that long-term US buying support hasn't fully disappeared, but it is currently under strain.

One of the key takeaways from the State of Crypto report is that stablecoins are becoming what a16z calls a "global macroeconomic force." The report notes that more than 1% of all US dollars now exist as stablecoins on public blockchains.

"Bitcoin was easy because it's the gold standard for crypto," she continued. "We believe Trump coin is undervalued, considering that it's the coin backed by the President of the United States, who is not only popular in the United States but a global figure respected and followed all over the world."
