With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

Coinbase also highlighted macro and liquidity tailwinds, including two more expected Federal Reserve rate cuts and large money-market funds sitting on the sidelines, that could drive markets in Q4.

"In practical terms, this means HIVE is scaling production of Bitcoin much like a growth business scales output of a core product," he wrote. "Each incremental

exahash increases daily production and revenue potential, while our HPC division provides a complementary revenue stream that grows with demand for compute power. "

Users of prediction market Myriad, launched by Decrypt's parent company DASTAN, place a roughly 60% chance on Bitcoin's dominance surging to 64% instead of dropping down to 54%, down from 69% at the start of the month.

"We are competing with China, so we need the best company to let us land on the moon as soon as possible. SpaceX has won a contract to build HLS, but the progress is slow," said Duffy in a CNBC interview on Monday.

In a post on Sunday, the Ethereum core dev, who goes by "Fede's intern" on X, argued that while Paradigm has "created valuable things for the community," he is worried about the growing influence of a venture fund whose ultimate goals are driven by profit and influence.
