Ethereum's bearish positioning is evident in Deribit's data, which shows "a large increase in open interest of puts since the end of August," Andrew Melville, head of research at crypto derivatives analytics platform Block Scholes, told Decrypt.

Through the years, Musk has posted tweets, changed logos and made playful remarks that led to DOGE price pumps.

Blockchain-based derivatives, not real shares

“So as we move dollars onto the blockchain, which is stablecoins, we’ll move stocks and real estate,” he said.

“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”
