The price of the two biggest digital assets has in the past risen significantly when investors have bought shares of the American ETFs.

“The \$9 million transfer that Arkham and others have cited was simply a transfer to another wallet under his control. He did not send those funds to an exchange (yet),” he said. But he cautioned that it’s possible that World Liberty has access to non-public information that explains the blacklisting.

Historically, Bitcoin’s price movements have followed a four-year cycle, often soaring one year after its halving—the quadrennial slashing of BTC miner rewards that’s baked into Bitcoin’s code—and then crashing soon after.

"Singapore's regulatory emphasis centers on payments and the regulated use of tokenized payment instruments, whereas Hong Kong's development is more product-centric, focusing on governance, investor protection, and the regulatory treatment of crypto-enabled offerings within capital markets," Chu explained.
