Early investors of the WLFI token, including Sun, managed to buy in at just \$0.015 per token, or a \$1.5 billion valuation, and are still very much in the green by more than 10X. But those retail traders who bought WLFI as soon as it became tradeable at a price above \$0.33? They're now down 45%.

A key technical signal to watch is the 200-day exponential moving average (EMAs), which BTC has held for nearly six months. In the previous cycle, it maintained this trend from October 2024 to March 2024 before briefly losing it during consolidation. This time, the trendline has held from April to October 2025, with the price possibly losing the trendline in the coming days.

Shortly after the comment was made, however, another X user pressed Dorsey on his own financial commitment to the cause of protecting Bitcoin developers, questioning how much he had donated.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
