How to use it: If funding is highly positive and OI is rising into resistance, treat upside breaks with skepticism. This usually signals bull-trap risk. If funding is deeply negative and OI has just flushed below support, be cautious when shorting breakdowns. This often indicates bear-trap risk. Pair these reads with a higher-timeframe retest-and-hold and volume confirmation before increasing position size.

Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.
