“What that means is that when you remove a result from search under our policies, in addition, what we'll do is on any query that includes your name—or would be likely to surface that page from search—all explicit results will be filtered,” the spokesperson said. “So not all explicit results will be removed, but all explicit results will be filtered on those searches, which prevents them from appearing on searches where it would be likely to show up.”

Grok 4 combines a real-time feed of X conversations with web DeepSearch and a higher-reasoning “Grok Think.” That means you can surface sudden narrative spikes on X, ask the model to search broader web sources for context and request a reasoned assessment rather than a one-line summary. XAI’s product notes and

recent coverage confirm that DeepSearch and expanded reasoning are core selling points.

“Summarize the white paper for [TICKER] into 8 bullet points: use case, consensus, issuance schedule, vesting, token utility, known audits, core contributors, unresolved issues.”

This technological progress has fueled the continued adoption of stablecoins, fiat-pegged digital tokens that can move across the internet without relying on traditional payment rails. The report cited \$9 trillion in stablecoin transactions over the past 12 months — an 87% increase from the previous year.

To determine whether Ether whales are truly betting on further downside or simply hedging amid worsening macroeconomic conditions, it is useful to examine top traders' positioning on derivatives exchanges. This metric combines data from futures, margin, and spot markets, offering a clearer view of short-term sentiment.
