This week, Citi gave Strategy a "buy" rating with a \$485 price target but warned the stock "presents significant risks due to its positioning as a leveraged proxy for Bitcoin," noting even moderate Bitcoin price declines can lead to magnified shareholder losses.

To some analysts, this inverse behavior suggests that the Bitcoin price is bottoming.

The emergence of smart contracts has brought revolutionary breakthroughs to blockchain technology. These self-executing computer programs can automatically

trigger corresponding operations when preset conditions are met, without manual intervention. Smart contracts not only improve transaction efficiency but also greatly reduce trust costs. Currently, smart contracts have been widely applied in decentralized finance (DeFi), digital identity authentication, the Internet of Things, and other fields. With the continuous development of technology, the functions of smart contracts will become more powerful, and application scenarios will become more abundant.

Galaxy Digital reported strong third-quarter earnings, driven primarily by higher trading activity and continued expansion in asset management, signaling steady institutional interest in crypto-focused financial services.
