CleanSpark's strategic pivot comes as the post-Bitcoin-halving pressure is driving mining companies to explore new sources of revenue.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

The six candidates vying for seats on the California Public Employees' Retirement System Board of Administration expressed divided views when asked whether Bitcoin should be included in the \$506 billion fund's portfolio.
