The campaign's gamified nature has also led to community engagement across social platforms, with participants sharing their progress, NFT achievements and referral milestones. This activity is generating continued interest in the campaign as it moves into its next phases.

The FT estimated that World Liberty Financial generated more than \$550 million in sales of its WLF1 token, which included investments from Chinese crypto billionaire Justin Sun and the United Arab Emirates-based crypto fund Aqua 1 Foundation.

Corporations will back off if user take-up is low

A high hash rate is important because it means more computing power is being used to keep the cryptocurrency's network secure. And the more computing power used, the harder it is for attackers to take control of more than 50% of the Bitcoin network.

"The markets teach you, you always have to relook at your assumptions," Fink told CBS last week. "There is a role for crypto in the same way there is a role for gold, that is, it's an alternative."

That infrastructure is now being extended with their acquisition of 21Shares as a "natural next step" to strengthen market efficiency, Yarlagadda claimed, adding that the move is a "deliberate, long-term investment in building durable enterprise value across market cycles."
