Both Bitcoin and gold have seen significant price gains since the U.S. government shutdown began earlier this week.

The price of gold has surged 64% since Jan. 1 as investors flock to the store of value asset amid dollar debasement, geopolitical tensions, and trade tariff woes.

The relative strength index is still below the 50 mark, suggesting that market conditions still favor the downside.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

DOGE is up around 1.6% today and changing hands just shy of \$0.20. The meme coin has dropped by 25% in the last month and is now more than 72% off its 2021 all-time high of \$0.73.
