Earlier in May, the firm acquired Canadian crypto platform WonderFi in a \$179 million deal, further expanding its global footprint. Robinhood has also been pushing for clearer tokenization regulations in the US, submitting a proposal to the Securities and Exchange Commission for a unified national framework governing RWAs.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

The relative strength index or RSI also dropped to its lowest level, matching April's low value of 34, following which BTC started to recover in the charts.

Ethereum could eventually surpass Bitcoin's market share in a similar manner to how US equities overtook gold 54 years ago, when the US abandoned the gold standard, according to BitMine chair Tom Lee.

The turning point: Regulatory and market shifts

Lubin's comments come shortly after the departure of two key Ethereum researchers, which caused renewed concerns over the potential influence of centralized funds over Ethereum's development.
