Ripple partnered with Bahrain Fintech Bay (BFB) in October to offer digital asset custody services and integrate the RLUSD dollar-pegged stablecoins into the country's digital asset ecosystem.

The competition began with \$200 in starting capital for each bot before increasing to \$10,000 per model, with trades executed on decentralized exchange Hyperliquid.

"While differentiating between this content is a technical challenge for search engines, we're making ongoing improvements to better surface legitimate content

and downrank explicit fake content,” Google said. In regards to CSAM, the Google spokesperson said the company takes this subject very seriously and has dedicated an entire team specially to combat this illegal content.

Despite the mixed technical setup, retail traders appeared to be betting aggressively on further upside. Data from trading resource Hyblock Capital outlined Ether’s True Retail Accounts (TRAs) long percentage has reached the 90th percentile, one of the highest levels across major crypto assets. Hyblock said,

Authority is the emergent product of differing capacities for violence among individuals and groups. This gradient of violence gives rise to coercion, where the possessors of violence impose rules on subjects. And code, while dictating internal rules within its own logic, has no monopoly on violence in the world writ large.
