Ask Grok 4 to return the verified contract address and links to audits. Then cross-check on Etherscan or a relevant blockchain explorer. If unverifiable, mark as high risk.

That is, of course, if you trust that the planets will align and the trend will remain valid until new year's eve.

Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators

are working toward introducing a stablecoin framework by the end of next year.

Strategy notched its third smallest Bitcoin purchase of the year, disclosing that it had spent \$18.8 million on 168 Bitcoin last week, according to a Monday press release.

"BTC's appeal as a safe haven is not only becoming more visible but also more deeply rooted—growing at the same time that confidence in traditional institutions continues to erode," FRNT Financial Head of Data and Analytics Strah Savinja told Decrypt.

Did you know? Candlestick charts originated in 18th-century Japan, where they were first used to track rice trading, long before making their way into modern crypto markets.
