Lee said that when that happened, “The immediate beneficiary was demand and a market to own gold.”

For the bear, here’s the but: The setup is more overbought than sustainable. The parabolic structure is fragile. RSI flirts with danger. And crypto markets are notorious for violent reversals.

At the time of writing, Floki has jumped by nearly 27% on the day to a price of \$0.000086 and an \$829 million market cap, with some claiming that it's a sign that Musk is losing his pull. Others pushed back, stating that Floki is simply a larger

asset than last time, thus making its price harder to move from a single social media post.

The immediate-term direction now hinges on Friday's upcoming Non-farm Payrolls report. A bullish jobs report would most likely just limit the "red September" damage, according to Dawson, rather than spark a major rally.

The next bear market "will be defined by another cycle people forget about," said Woo on Monday.

ReversingLabs says the malicious packages attempted to overwrite legitimate commands in order to extract sensitive database files.
