The referral system also proved to be a growth driver, with 25,212 new users brought into the Algorand ecosystem through invitations from friends. By the end of the week, 4,215 participants had successfully completed all the required quests and claimed their non-fungible token (NFT) badges.

In fact, even with such a sharp correction, the overall trend could still be considered long-term bullish, with prices still trading above the 50-day EMA.

The difference between the crypto trading performance of the AI models likely stems from their training data, according to Nicolai Sondergaard, research analyst

at crypto intelligence platform Nansen.

Strategy said earlier this year that it was adjusting its policy on common share issuance to convey discipline. The policy was modified to give the company greater flexibility, but onlookers suggested that it could make Strategy's move less predictable moving forward.

He touted BTC as one of the hard money assets that can save the ailing economy, meaning the prices of gold and BTC will continue to rise in the face of currency inflation as individuals and businesses adopt BTC to protect purchasing power.
