The US dollar's hegemony is over, as evidenced by China's recent announcement of export controls on rare earth minerals, a critical component in electronics manufacturing and military defense applications, according to analyst Luke Gromen.

"This is a first step in bringing the spirit of Dogecoin directly into the fabric of the world's game," he added.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead.

"Traditional sportsbooks focus on entertainment-driven, event-specific wagering with defined odds and consumer protections; meanwhile, prediction markets operate as decentralized forecasting tools where liquidity and information efficiency determine prices," he added. "If effectively regulated, both models could ultimately complement each other."

Catalyst windows can also distort price action. Listings and token unlocks may temporarily overwhelm shallow market depth, especially in illiquid altcoins. This can produce sharp "breaks" that often reverse once order flow normalizes. Research on market microstructure around launches and unlocks shows how depth, fragmentation and positioning can combine to create these head fakes.

Prediction market gurus have plenty on their plate this week, between NFL kickoff and forecasting the next crypto market moves after recent all-time highs.
