The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.

"Traditional sportsbooks focus on entertainment-driven, event-specific wagering with defined odds and consumer protections; meanwhile, prediction markets operate as decentralized forecasting tools where liquidity and information efficiency determine prices," he added. "If effectively regulated, both models could ultimately complement each other."
