“Creating Tilly has been, for me, an act of imagination and craftsmanship, not unlike drawing a character, writing a role, or shaping a performance,” she said. “She represents experimentation, not substitution.”

"India is unique in its challenges," Bharwani said, noting that while there is demand for digital assets and flourishing ecosystems being built, "a lack of clarity is causing founders to move away offshore."

A bull trap happens when the price pokes above resistance and then reverses, while a bear trap occurs when the price dips below support and quickly snaps back. These fake breakouts often result from forced liquidations and mean

reversion, clearing out crowded positions.

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.
