The MACD is a popular momentum indicator used in technical analysis that helps traders identify the strength, direction, and duration of a trend in an asset's price.

Yet by value, Bitcoin accounts for a smaller share of local portfolios, with the average BTC balance at AU\$17,409, well below the global average of AU\$29,830.

“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”

Digital wallets are essential tools for entering the blockchain world. They are not only used to store cryptocurrencies but also to manage users' digital identities and interact with DApps. According to different storage methods, digital wallets can be divided into hardware wallets, software wallets, and paper wallets. Among them, hardware wallets have the highest security but are less convenient to use; software wallets (including desktop wallets, mobile wallets, and web wallets) are convenient to use but have relatively lower security. Choosing a suitable digital wallet requires balancing security and convenience according to individual needs and asset scale.

A Uniswap engineer said the team did not specifically build the integration for Solana, but rather designed “architect layers” that were platform-agnostic.
