Next: Document sharing basics in Google Docs On this page Create or import a document Create and name your document At the top of the page, click Untitled document and enter a new title. Import and convert an existing document Converting your file from another program creates a copy of your original file in a Docs, Sheets, or Slides format. You can then edit the file in your browser. If you have existing files, you can import and convert them to Docs, Sheets, or Slides. Go to Drive. Click NewFile Upload. Choose the file you want to import from your computer to add it to Drive. In the Upload complete window, click Show file location . Right-click the file and select Open withGoogle Docs/Sheets/Slides. Have a Microsoft file? If you've already stored Microsoft files in Drive, you can also update them without converting them. Add or edit text Just click in the page and start typing. Format your document Depending on what you want to change, choose an option: To customize margins, page color, and orientation, click FilePage setup. To customize text, images, tables, and more, use the toolbar options. Note: Some options only appear for certain types of content, such as tables or images. Undo or redo your last changes or print your document. Check spelling and grammar. Copy formatting from any text and apply it to another selection of text. Normal text | Arial | 10 Change the style, font, or font size. Make text bold, in italics, or underlined or change the text color. Add or change the text highlight color. Insert a link, comment, or image. Change the text alignment. Change the line spacing or add a checklist, bullets, or numbers. Change the text indentation. Remove text formatting. Table and image options Add background color to a table or change the border color, width, or style. Crop an image. Image options... Change the color, transparency, brightness, or contrast. Replace image Replace an existing image with a new one. Add pictures, links, tables, and more The Insert menu lets you add different features to your document. Here are the highlights: Image—Insert an image from your computer, the web, Drive, and more. Table—Select the number of columns and rows to create a table. Drawing—Create shapes, pictures, and diagrams right in your document. Link—Add a link to another page or to a header or bookmark in the same document. Bookmark—Add shortcuts to specific places within your document. Table of contents—Create an auto-generated table of contents that links to each heading in your document that has a heading style applied. Print your document from Chrome browser On your computer, open a document in Google Docs. Click File Print. In the window that opens, choose your print settings. Click Print. Use Gemini to create & update content You can use this feature only if your organization supports it. For help, contact your administrator. Google Workspace with Gemini is available when your Google account language is set to an English dialect. Additionally, some features are available in Spanish and Portuguese. Learn more about language availability. Use Google Workspace with Gemini to create placeholder content you can refine and update. On your computer, open a Google Doc file. In the document, click where you want to write. On the left, click Help me write . Enter a prompt that contains your instructions. For example, Imagine you are the lead on a project. Write an update to your executive leadership team on [Project X]. Include the current status for each business function and next steps. Use a formal, brief tone. Click Create. Review the response. (Optional) Click Refine then choose how you want Gemini to change the content. When you're finished, click Insert. Back to top Google, Google Workspace, and related marks and logos are trademarks of Google LLC. All other company and product names are trademarks of the companies with which they are associated. Creating a new survey is simple: Visit . Click + NEW SURVEY. In step 1 (Write questions), select the appropriate question type(s) and write your question(s). Click CONFIRM. In step 2 (Pick audience), name your survey and select your target audience. Click CONTINUE. In step 3 (Confirm survey), review your survey questions and purchase responses. You also have the option here to adjust the survey frequency. Click BUY NOW or START TEST\* if your survey has screening questions. Your survey is sent to our team for review and you receive a confirmation email once it has been started. You receive another email with a link to your results once your survey is completed. You can start seeing results once your survey is approved and data is processed, which usually happens in a matter of hours. \*If you use screening questions, an audience test is required and the minimum incidence rate is 5%. Survey creation frequently asked questions Expand all Collapse all How can I target the appropriate audience with my survey questions? When Google Surveys collects responses from the "general-Internet audience," it uses published Internet-population data sets for the target-population distribution. For example, when targeting United States, the United States government's Current Population Survey (CPS) Internet Supplement is the target population distribution. For details, see our methodology overview. Note that our audience incomes are the median income of the areas we surveyed. You can target questions based on inferred demographics (age, gender, or geography) from the first step of the survey-creation wizard. For custom audiences such as dog owners or people who play golf, you can use screening questions that let you screen respondents to ensure that they are in your target audience. A screening question can be any non-binary, multiple choice question such as Yes / No / I plan to. As an example, respondents first see your screening question and then those who select "Yes" or "I plan to" answer the following questions from your survey. What types of language targeting are available? When targeting surveys to the general population in specific countries, you are required to write your survey questions in the language that's available in the country you selected. Learn more about the language availability for each country. Survey translation Google Surveys does not provide any survey-translation services. All surveys must be written and submitted in the language that the survey is targeting. Surveys are not automatically translated. Where will my survey questions appear? Questions appear throughout sites in our publisher network in order to get a representative sample of respondents. Users complete survey questions in order to access high quality content around the web, and publishers get paid as their users answer. Google and many publishers want to protect their readers' privacy and ensure that any proprietary data they have about their readership is not exposed, so we do not supply a list of the sites where individual questions run. Can I create matrix-grid-type questions? Google Surveys does not support matrix questions, or grids with response categories along the top and a list of questions down the side, which often prompt participants to abandon surveys (Brecko, Carstens; 2006). Instead, we suggest that you break out each row of a matrix question into its own separate multiple choice or rating question. This way, respondents can focus on each question and provide more accurate answers. Learn more about our available question types Post to the help community Get answers from community members To sign up for Gmail, create a Google Account. You can use the username and password to sign in to Gmail and other Google products like YouTube, Google Play, and Google Drive. Important: Before you set up a new Gmail account, make sure to sign out of your current Gmail account. Learn how to sign out of Gmail. From your device, go to the Google Account sign-in page. Sign in to Gmail Post to the Help Community Get answers from community members You can create a Google Account for your child under 13 (or the applicable age in your country) and manage your child's Google Account with Family Link. With a supervised Google Account, your child gets access to Google products like Search, Chrome, and Gmail. You can set up parental controls to help supervise them. If your child is above the age of 13 (or the applicable age in your country), they can create their own Google Account. Once your child has their own Google Account, you can add supervision and set up parental controls through Family Link. You or your child, if they're above the age of 13 (or the applicable age in your country), can stop supervision at any time. If your child stops supervision, you'll be notified and your child's supervised devices will be temporarily locked. Learn more about how to add and manage supervision on a current Google account. If your child uses a Pixel Tablet and is below 9 years old, you can create a Google Account without a Gmail address and password. If you want to add a functional Gmail address to your child's account, you can do so at any time. Tip: You may need to add a Gmail address and password to your child's account to enable them to access certain apps and services. You can upgrade your child's account from a blocked app or through Family Link. Create an account It takes about 15 minutes to create your child's Google Account. Go to the create your Google Account page. To create your child's account, follow the on-screen instructions. You'll enter info like your child's name, the email address they want, and their birthday. To provide parental consent for your child's account, sign in with your own Google Account and choose your preferred way to give consent. Tip: When you've made the account, you get a confirmation on the screen. On a new Android device Follow these steps to create a Google Account for your child under 13 (or the applicable age in your country) when you're setting up a new device running Android 5.0 and up. Turn on the new device and follow the instructions on screen to set up the device. When you're asked to sign in with your Google Account, tap Create account. If you don't see "Create account," tap More options For my child. Enter your child's name, birthday, gender, email address, and password. Follow the instructions to sign in with your own Google Account, provide parental consent, and pick your child's settings. On a new Chromebook Follow these steps to create a Google Account for your child under 13 (or the applicable age in your country) when you're setting up a new device running ChromeOS M128 or up. To set up your device, turn it on and follow the on-screen instructions. When you're asked to Choose your Chromebook's setup, select For a child Next. Select Child's Google Account Next. Select Create a Google Account for a child Next Yes, continue. Enter your child's name, birthday, gender, email address, and password Follow the instructions to sign in with your own Google Account, provide parental consent, and choose your child's settings. Follow these steps to create a Google Account for your child under 13 (or the applicable age in your country) to sign them into an existing device running Android 5.0 and up. Note: Instructions for adding and removing accounts on the device will vary. If the instructions below don't work, search your device's help center for more information. Remove any existing accounts on the device. Delete any apps, photos, or other data from the device you don't want your child to have access to. Follow the steps to add a new account to the device. When you're asked to sign in with your Google Account, tap Create account. If you can't find "Create account," tap More options For my child. Enter your child's name, birthday, gender, email address, and password. Follow the instructions to sign in with your own Google Account, provide parental consent, and pick your child's settings. On a new Pixel Tablet Important: To create your child's Google Account without a Gmail address and password, you need to sign in with your Parent account first. Turn on the Pixel Tablet and follow the on-screen prompts to set up the device with the Parent account. Go to Settings . Tap System Multiple users. Turn on "Allow multiple users" Add child. When prompted, tap Yes, continue. Enter your child's name then tap Next. Enter your child's basic information then tap Next. You'll get the option to continue with or without a Gmail address. Select Yes, continue without one and follow the on-screen prompts to choose a profile picture. Review the privacy information. To provide consent, enter the password tied to your parent Google Account, then tap Next. Review settings for Parental Control then tap Next. Review screens, then tap Next. When you're done, you'll get an on-screen confirmation. Tip: See something that looks like an email address (@glimitedaccount.com)? This is auto generated to help us provide your child services and is not a valid email address. Create an account with a Gmail address & password You can give your child access to Google products like Search, Chrome, and Gmail when you create a child account with an email and password. Turn on the Pixel Tablet and follow the on-screen prompts to set up the device. When asked to create a Google Account: Tap Create account For my child Let's go! . Enter your child's name, birthday, gender, email address, and password. Follow the instructions to sign in with your own Google Account, provide parental consent, and pick your child's settings. When you're done, you'll get an on-screen confirmation. Troubleshoot problems I want to upgrade my child's account with Gmail and password You can upgrade your child's Google Account to include a Gmail address and password so they can access more features. When your child tries to access a blocked app, they'll get the option to tap "Ask a parent" or "Ok." If they select "Ask a parent," you can upgrade the account through your parent account. Upgrade your child's account from their device When your child tries to access a blocked app, they'll get the message "Your parent will need to add a Gmail address and password to your Google Account." Tap Ask a parent. When prompted, tap Parent is here. Select your Parent account. Enter your password. Enter your child's basic information, then tap Next. Follow the on-screen prompts to create a Gmail address and password for your child. Tap Next. Review the privacy information and provide consent. When you're done, you'll get an on-screen confirmation. Upgrade your child's account from your device When your child tries to access a blocked app, they'll get the message "Your parent will need to add a Gmail address and password to your Google Account." Tap Ask a parent. On your child's device, ask your child to tap Parent is not here Yes, email my parent. The child's device gets a notification that an email has been sent. Tap Ok. On your parent device, find the email and tap Create Gmail address. If you're prompted to, add your child's Date of birth. Follow the on-screen prompts to create a Gmail address and password. Review the privacy information. To provide consent, enter the password tied to your Google Account and tap Next. Tap Done. I was charged a fee to set up my child's account To create a Google Account for your child, you're required to give parental consent. One way to provide consent is by using your credit card. While you won't be charged a fee, a temporary authorization may be placed on your card to verify that it's valid. In most cases, temporary authorizations are removed from your account within 48 hours. Post to the help community Get answers from community members
