## Comprehensive Guide to free trading signals for binance

And if a lot of that is being fueled by longtime HODLers converting their stacks into ETF shares, as Maartunn hypothesizes, it's pretty unusual.

"India pursues a much stricter stance on crypto rebrands and related activities, and Australia maintains a cautious, market-conduct-oriented posture in its exchange frameworks," he added.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling

prices ahead. That cohort may be partly accounting for crypto's weekly decline, with Bitcoin dropping over 9%, Ethereum falling 6%, and XRP showing a 15% dive—with some altcoins down even worse. Crypto prices plunged last Friday following Presiden...

Without real demand, any breakout attempt might lack the strength required to push ETH above key levels.

Once a coin passes the quick screen, the next step is to dig into the data that tells you whether a project has staying power or is just another short-lived pump.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.
