Since then, North America has become the most dominant player in the Bitcoin mining space.

But there's other big market players to consider, like Bitcoin treasury companies, according to Rick Maeda, a research analyst at Presto Research. He's especially interested in ones like Japan's Metaplanet, which has sworn off ever selling its BTC stash.

How to read: A decline in volume on the right shoulder signals weakening momentum. A price break below the neckline confirms a bearish reversal, while a break above it confirms a bullish inverse. Measure the distance from the head to

the neckline, then project that distance from the breakout point to estimate the target move.

continues to trade below the crucial \$4,000 threshold, struggling to establish bullish directional momentum following last Friday's flash crash. The altcoin consolidated between its 50-, 100- and 200-day exponential moving averages (EMAs), a technical zone that highlighted the ongoing tug-of-war between short-term and long-term market trends.

The group claims this demonstrates confidence in Bitcoin's fundamentals and aligns with its goal of developing a Bitcoin-centric institutional finance platform that combines treasury management, liquidity aggregation, and mining operations within a regulated framework.

Decrypt has reached out separately to Digital River for comment on their former employee's actions and sentencing.
