The main goal of VCs like Paradigm is to "suck as much value as possible from the Ethereum and broader ecosystem," while their secondary goals include "progressing the systems towards rigorous decentralization," wrote Lubin in a Monday X post, adding that there is "no reason for concern."

Trust companies, for example—which custody crypto assets—may not be considered legally eligible for "skinny" master accounts, given their current inability to receive deposits, Long warned.

While the \$20 million plan was designed as a short-term measure, the latest proposal seeks to make buybacks perpetual, embedding them directly into the DAO's governance and treasury management. The move would shift Aave from opportunistic market reactions toward a systematic, rule-based capital strategy, echoing corporate-style financial management.
