House of Doge was founded earlier this year to help grow mainstream awareness and adoption of the world's biggest meme coin. Since that time, the firm has collaborated with publicly traded CleanCore on a DOGE treasury chaired by Alex Spiro, the personal lawyer of DOGE-friendly billionaire entrepreneur, Elon Musk.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the

development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

Monday alone saw Ether ETFs shed \$145.7 million, bringing total net outflows over the past eight days to \$640.5 million.
