The next bear market "will be defined by another cycle people forget about," said Woo on Monday.

"This is the biggest single threat to Bitcoin since its inception from the ashes of the global financial crisis," David Carvalho, founder and chief scientist at the Naoris decentralized cybersecurity protocol, said.

In its Aug. 18 notice, the US Treasury asked for comments, which closed last Friday, on innovative methods to detect illicit activity involving digital assets, as required by the GENIUS Act.

They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on whether the nation's political institutions can restore consensus amid deep division," they said.

Indeed, OpenSats received a $21 million donation from Dorsey's Start Small initiative in 2024. The tech billionaire has been an outspoken advocate for decentralized technology and censorship resistance for years, and one of the most famous Bitcoin backers around.

If approved, the proposal will proceed through the Aave Request for Comment (ARFC) stage for community feedback, followed by a Snapshot vote and final onchain governance confirmation. Unlike short-term market interventions, the proposal aims to institutionalize buybacks as a recurring mechanism, essentially making the DAO an active capital allocator.
