June, Hut 8 received a $150 million investment from tech-focused investment manager Coatue Management, to help the company "capitalize" on the growing demand for AI computing power.

The index is now at similar levels to those last seen in April, when Bitcoin dropped to a low of $74,000. It also mirrors levels seen during the 2018 and 2022 bear markets, as shown in the figure below.

Tether is one of the crypto industry's most profitable companies. The USDT issuer, which posted a $13 billion profit last year, is reportedly seeking a $500 billion valuation in talks with potential investors.

"I've been saying for the past two years that the influence of @paradigm within Ethereum could become a relevant tail risk for the ecosystem. I believe this will become increasingly clear to everyone in the months ahead."

"There's no way to connect your existing bank accounts to your preferred digital asset exchanges without the open banking rules of the road," Lummis wrote in her letter. "Many big bank CEOs like Jamie Dimon have made their opposition to digital assets very clear."

The continued outflows come amid growing political unrest in the US. On Sunday, as the US government shutdown entered its 18th day, nationwide "No Kings" demonstrations accused the Trump administration of sliding toward authoritarianism.
