Creditors will sell U.S. debt as they grow worried about its ability to function as a store of value, he said. That will likely put the Federal Reserve in a tough position, Dalio added, where it has to decide between rising interest rates and a debt default crisis or printing money to buy debt and “try to hold real interest rates down, which will lower the value of money.”

The pattern reflects sustained investor confidence amid geopolitical and monetary uncertainty, the very conditions HSBC says will keep the rally alive into 2026.
