In March 2025, the exchange began moving assets between its wallets, a likely step in preparing for further repayments ahead of the Halloween deadline.

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.

At the frontier, where these structures haven't been established yet, strong individuals can maximally exploit that strength to dominate others. That is freedom to those who want that or otherwise possess heterodox views and wish to exercise them away from propriety's watchful eyes.

The head-and-shoulders pattern features three peaks, with a higher middle peak (the head) between two smaller ones (the shoulders), all connected by a "neckline." The inverse version indicates a potential bullish reversal.
