The UK's Financial Conduct Authority (FCA) is ramping up its push to police the crypto industry, issuing warnings to unregistered exchanges and seeking legal action against companies serving UK residents or promoting digital assets in the country.

Blockchain security is the foundation and guarantee for the development of blockchain technology. Due to the complexity of blockchain systems, their security issues involve multiple aspects such as cryptography, consensus mechanisms, and network security. Common security threats include 51% attacks, smart contract vulnerabilities, private key leakage, etc. To ensure the security of blockchain systems, measures need to be taken from multiple levels such as technology, management, and law. With the widespread application of blockchain technology, blockchain security will become increasingly important and will attract more professional talents to engage in it.

However, he emphasized that it is still a “working theory” and that he remains a Bitcoin bull.

The story follows founder Griff Green's perspective as the early instantiation of decentralized governance rises, raises \$160 million and then, at once, falls victim to a devastating hack.
