Bitcoin this year has surged off the back of pro-crypto President Trump's election win and subsequent inauguration. Since taking office, the Republican, who campaigned on a ticket to help the industry, has pushed digital asset-friendly policies, including plans for a strategic Bitcoin reserve.

The emergence of smart contracts has brought revolutionary breakthroughs to blockchain technology. These self-executing computer programs can automatically trigger corresponding operations when preset conditions are met, without manual intervention. Smart contracts not only improve transaction efficiency but also greatly reduce trust costs. Currently, smart contracts have been widely applied in decentralized finance (DeFi), digital identity authentication, the Internet of Things, and other fields. With the continuous development of technology, the functions of smart contracts will become more powerful, and application scenarios will become more abundant.

Julian Zehetmayr, CEO of LimeWire, told Decrypt that acquisition costs totaled approximately \$230,000. He warned that the team's plans are still in their infancy as they pin down specifics in the coming months, and that he expects a more detailed announcement to be released in early 2026.
