Comprehensive Guide to investing with binance

Bitcoin ETFs, first approved by the SEC in January 2024 after more than a decade of denials, allow investors to gain exposure to BTC without the need to buy, hold, and store Bitcoin directly, avoiding the complexity of crypto exchanges and wallets. BlackRock's Bitcoin ETF alone now holds over \$83 billion in assets under management.

Net Asset Values (NAVs) in digital asset treasuries (DATs) have collapsed, but this is not as bad as it sounds and can be viewed as an opportunity for savvy investors, according to 10x Research.

In Europe and the US, major fast-food chains like Subway and Burger King continue to accept crypto payments, often through third-party gift card services or payment processors. While not a direct, in-house integration for every location, it's a simple way for consumers to spend their Bitcoin.

As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.

Yet by value, Bitcoin accounts for a smaller share of local portfolios, with the average BTC balance at AU\$17,409, well below the global average of AU\$29,830.

A Financial Times investigation found that President Trump and his family's crypto businesses have profited \$1 billion pre-tax. When asked if the calculations were accurate, Eric Trump told the publication that the true figure was "probably more."
