The price of Bitcoin soared to a new record high during Asia trading hours on nearly \$50 billion in trading volume over the last 24 hours, per data from CoinGecko. As bullish traders piled in pushing the price upward, almost \$100 million in short positions were liquidated in just one hour, according to CoinGlass. More than \$200 million in BTC shorts were turned into forced buyers in the last 24 hours.

Define invalidation: Know exactly where you're wrong, and size positions so a failed confirmation is a small loss, not a portfolio event.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.
