The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

This week, Citi gave Strategy a "buy" rating with a $485 price target but warned the stock "presents significant risks due to its positioning as a leveraged proxy for Bitcoin," noting even moderate Bitcoin price declines can lead to magnified shareholder losses.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.
