Risks and criticisms of Grayscale's staking funds

Creditors will sell U.S. debt as they grow worried about its ability to function as a store of value, he said. That will likely put the Federal Reserve in a tough position, Dalio added, where it has to decide between rising interest rates and a debt default crisis or printing money to buy debt and “try to hold real interest rates down, which will lower the value of money.”

In their Telegram group, members have also brainstormed ideas for future attacks. Proposed targets include the Boston Marathon, a Lady Gaga concert and

Wimbledon.

“Blockchain and other innovative technologies can counter these emerging risks. Treasury and other policymakers should promote their use to identify and deter illicit activity.”
