Memecoins are one of the crypto sectors hit by the recent marketwide crypto crashes on Oct. 10 and Friday.

“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”

“The plan is really to properly and deeply integrate the LimeWire token into what we're doing with Fyre,” Zehetmayr told Decrypt. “We definitely want to do some kind of redemption for old holders of tickets as well. I think that's something where

you could involve crypto or even NFTs.”

Unlike Bitcoin’s proof-of-work (PoW) model, which relies on energy-intensive mining, PoS systems operate differently. They depend on staked capital and validator performance rather than computing power. This design makes them far more energy-efficient and accessible to a wider range of participants.

The crypto exchange sent a letter to the Treasury on Friday, responding to the agency's request for comment on innovative methods to detect illicit activity involving digital assets.

to help secure and validate transactions on proof-of-stake (PoS) blockchains. In return, participants earn rewards — similar in concept to earning interest — for supporting network operations.
