Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we've answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...

The November election will determine whether CalPERS continues its current approach of indirect crypto exposure or potentially opens discussions about direct digital asset investment.

In other words, the slight price bump is not being driven by aggressive buying. Instead, the move coincides with more passive buying.

Still, Takaichi's "pro-stimulus stance" may soon "push Japan into easing," as 80% of global banks already pursue QE efforts, according to macro investment resource Milk Road Macro's Oct. 8 X post.

"Maybe ChatGPT & Gemini could be better with a different prompt, LLMs are all about the prompt, so maybe by default they perform worse," Vandeloock told Cointelegraph.

"This is the biggest single threat to Bitcoin since its inception from the ashes of the global financial crisis," David Carvalho, founder and chief scientist at the Naoris decentralized cybersecurity protocol, said.
