Together, they account for about a quarter of the country's \$4.3 trillion (US\$2.8 trillion) superannuation pool, according to data released by the Australian Prudential Regulation Authority last week.

TRUMP is now changing hands at \$5.90, nearly 92% off its January all-time high of \$73.43.

"We can build, or architect, or code cyberspace to protect values that we believe are fundamental. Or we can build, or architect, or code cyberspace to allow those values to disappear. There is no middle ground. There is no choice that does not include some kind of building. Code is never found; it is only ever made, and only

ever made by us.”

In March 2025, the exchange began moving assets between its wallets, a likely step in preparing for further repayments ahead of the Halloween deadline.

He compared crypto to past financial disasters such as Orange County bankruptcy and Enron, calling it "opaque" and saying "it has no place in a pension system."

SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing concise, summarized information responding exactly to what users are looking for.
